

# FringeBrow™

## **PERMANENT COSMETICS PRE-PROCEDURE INFORMATION**

All permanent cosmetic procedures are multi-session processes. You are required to come back for at least one touch-up visit before it can be determined that your work is complete. Touch-up visits are scheduled at 4-6 week or no longer than 45 days.

Be prepared for the color intensity of your procedure to be significantly sharper, brighter, or darker than what is expected for the final outcome. It will take time for this transition, based upon how quickly the outer layer of your skin exfoliates.

While these tattooed colors may initially simulate the exact color and tone desired, they will not always remain a perfect match. Tattooed colors are constant, while your own skin color will vary depending on exposure to cold, heat, sun, and circulatory changes. For example, if you tan your skin and had a scar camouflaged, your surrounding skin will be darker in appearance than the treated area.

1. Since delicate skin or sensitive areas may swell slightly or redden, some clients feel it is best not to make any social plans for a day or two following any procedure. It is always best to avoid these procedures within months prior to important life events such as weddings. Procedures may take longer than expected to be complete under some circumstances.
2. Wear your normal makeup on the day of the procedure.
3. Do not resume any method of hair removal for at least two weeks.
4. Refrain from the use of alcohol, aspirin, aspirin-containing medications, ibuprofen, or other blood thinning medications for seven days before and two days after any procedure. No medications should be discontinued without consulting your physician.
5. Although not mandatory, an Eyebrow Shaping (with Tamara) prior to microblading is strongly suggested for optimal looking results. You can book this appointment online: [www.fringe brow.com](http://www.fringe brow.com)
